MY PROJECT

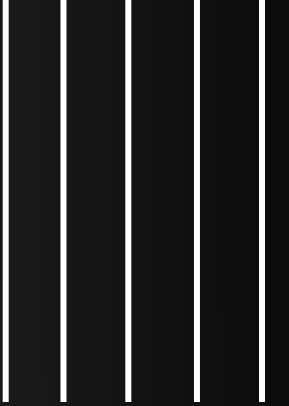

Digital Product

Some of my projects for digital product

CASION

Casion is a startup focuses on operating system for electric vehicle chargers in indonesia.

Casion is one of the projects that is quite pleasing to me, because it is the first project that I lead from just an idea to becoming an app .

I am responsible for creating user flow based on client needs, determining the scope of work, timeline, and also wireframing so that designers can understand more easily

[illegible]

The figure displays a sequence of six mobile application screens for a search interface. The first screen shows a search bar with the text 'WF - Tenirk - S.' and a magnifying glass icon. The second screen shows a list of search results with various icons and text. The third screen shows a detailed view of a search result with a map and text. The fourth screen shows a map view of the search results with a list of locations. The fifth screen shows a list of search results with various icons and text. The sixth screen shows a detailed view of a search result with a map and text.

The collage displays the Tesla Model S app interface across six screens:

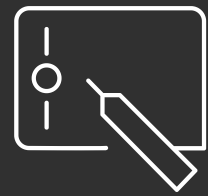

- Top Left:** A map view showing the current location and a nearby charging station marked with a red pin.
- Top Middle:** A search screen with a search bar and a list of recommendations, including "Ad - The Jays Pub - Thamrin" and "Starbucks Bendungan Hilir".
- Top Right:** A station details screen for "Starbucks Bendungan Hilir - 38401", showing a charging rate of 5.2 and a battery swap rate of 8,000 - IDR 20,000.
- Bottom Left:** A search screen with a search bar and a list of recommendations.
- Bottom Middle:** A "Now Charging" screen showing the Tesla Model S logo and a charging status indicator.
- Bottom Right:** A screen showing the "Tesla Model S" logo and a charging status indicator.

The figure displays three sequential screenshots of the Google Maps application interface, illustrating different map styles or themes. Each screenshot shows a map view with various location pins and a bottom navigation bar.

- Caslon - Car:** The first screenshot shows a map view with a yellow location pin and a red location pin. The bottom navigation bar includes icons for 'Map', 'Scan', and 'User'.
- Caslon - Permitted:** The second screenshot shows a map view with a yellow location pin and a red location pin. The bottom navigation bar includes icons for 'Map', 'Scan', and 'User'.
- Caslon - Centered:** The third screenshot shows a map view with a yellow location pin and a red location pin. The bottom navigation bar includes icons for 'Map', 'Scan', and 'User'.

NOBU NEO

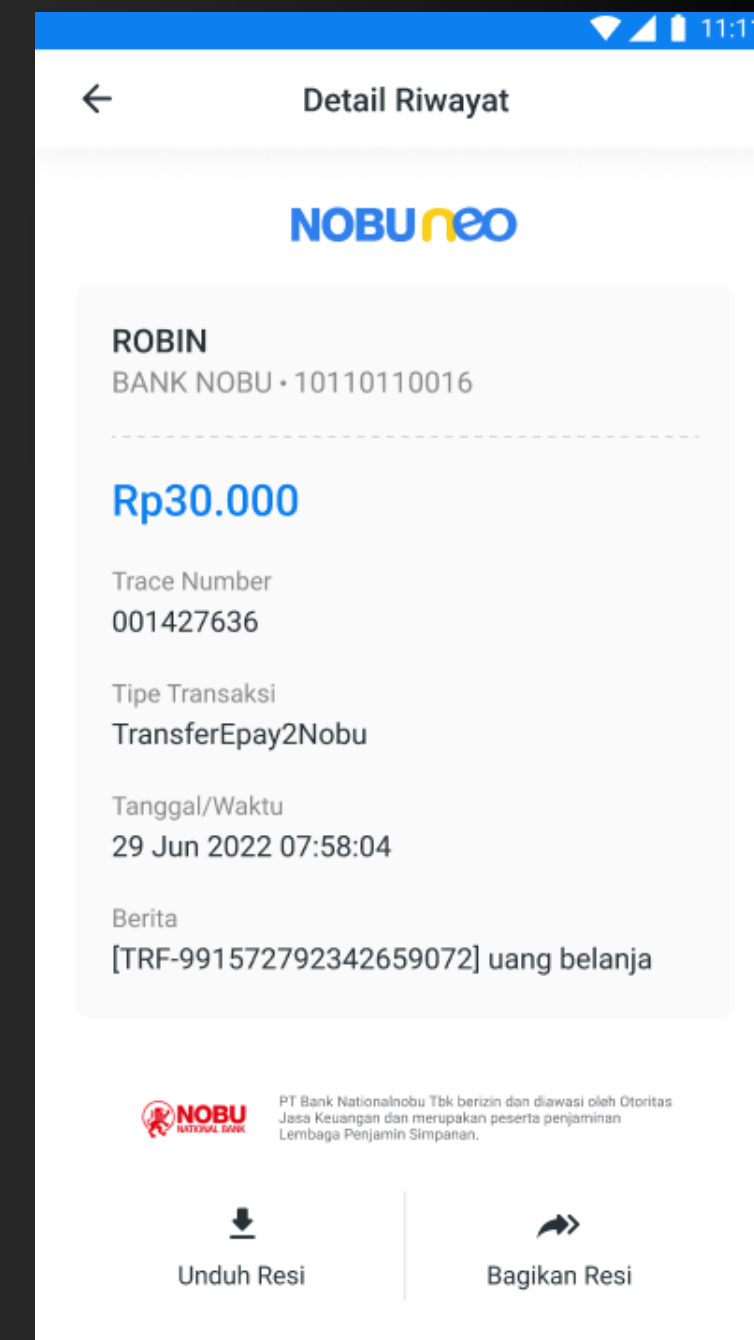

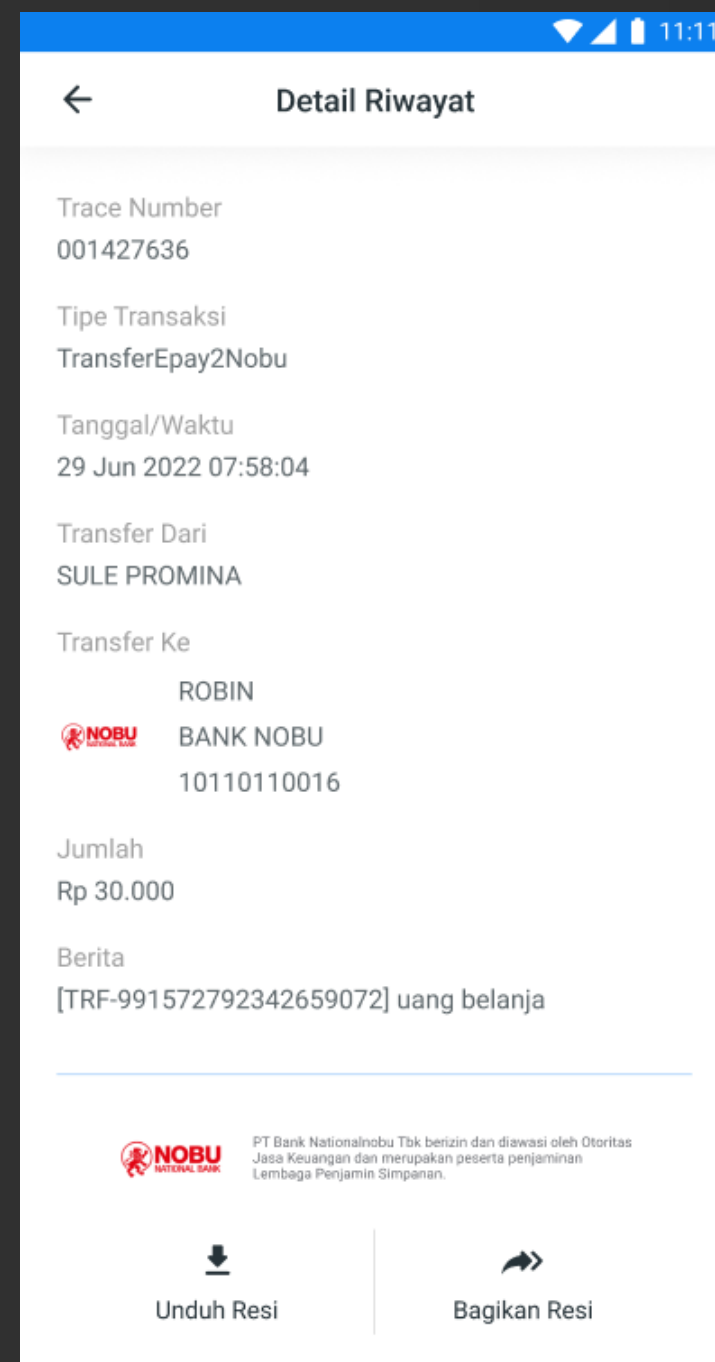

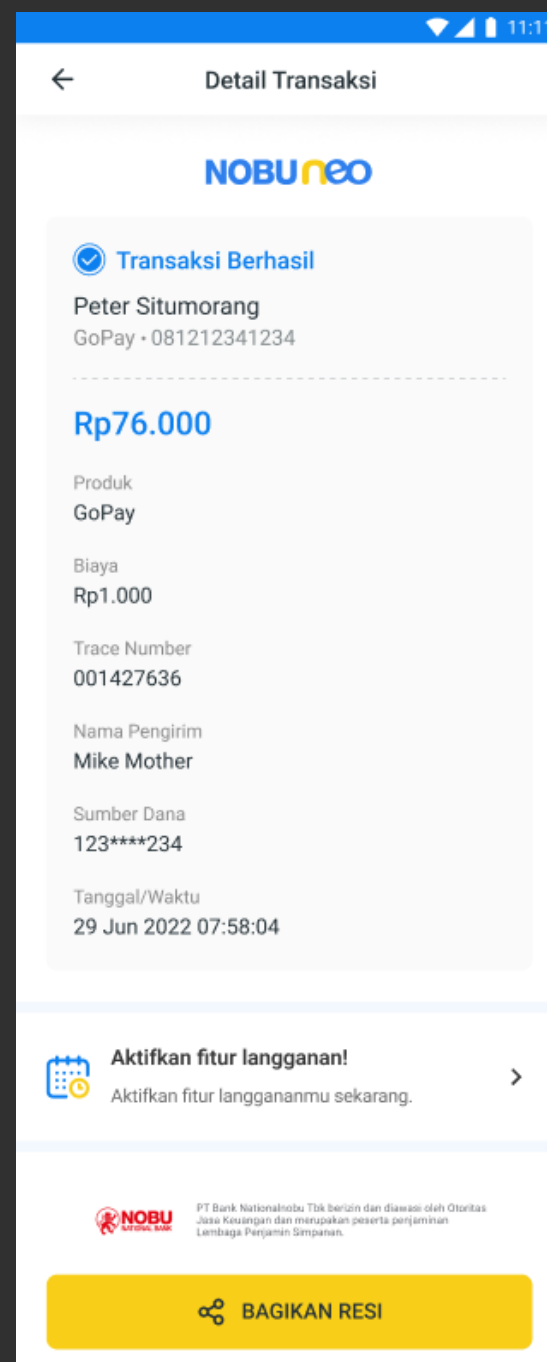

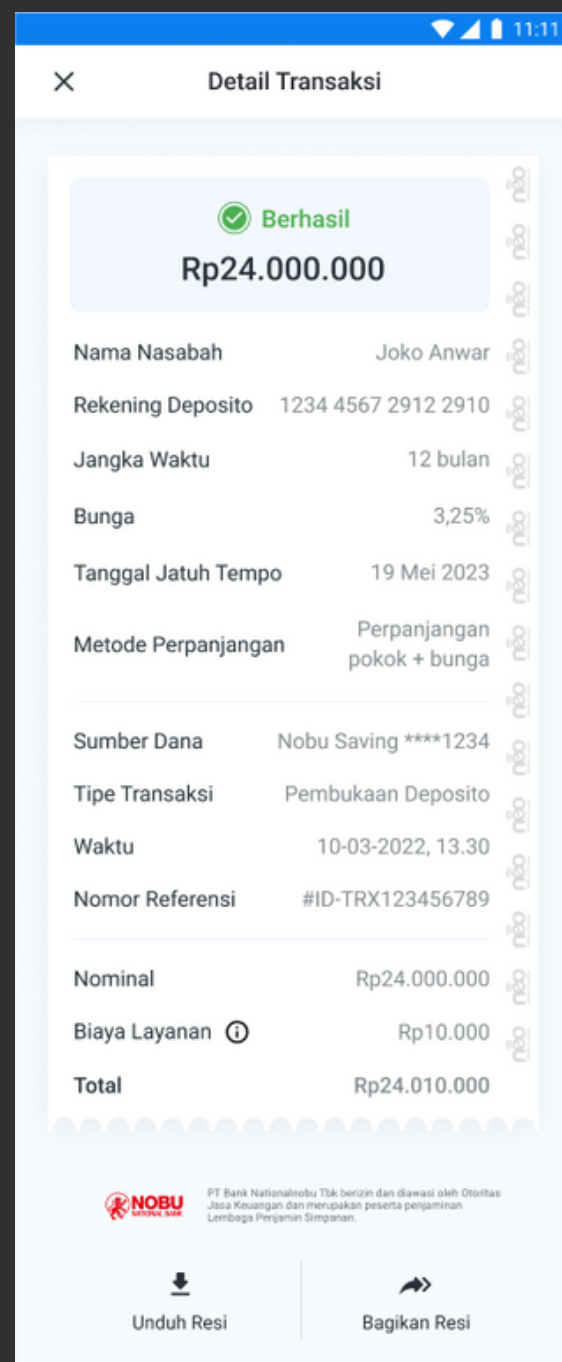

Nobu Neo is a product of Nobu Bank which is mobile banking from Nobu itself.

here I am responsible for revamping the old design according to the user's request. My team and I don't always agree with what the user wants, but we will do research first, especially on Nobu's competitors and also think about how to make a good user experiences.

DOMI BED

Domibed is a Home Living industry that selling an exclusive bed products that delivered in a box.

here I was asked to make a domibed a brand guideline according to the logo and existing colors. Also making some charcter and revamp the box design.

PROCESS OF MAKING BRAND GUIDELINE DOMI BED

MAKING BRAND STORIES

Halo, Kami Domi Bed

Siapa Kami?

Dom*i* Bed adalah sebuah brand Home Living Industry dari Indonesia yang memproduksi serta menjual perlengkapan tidur dan kasur eksklusif dengan harga yang *affordable*.

Dom*i* Bed percaya bahwa tidur nyenyak adalah sebuah kebutuhan yang dapat membuat semua orang lebih bahagia.

Inovasi Tiada Henti

Tak henti-hentinya berinovasi, kami merancang kasur eksklusif Dom*i* Bed dengan konsep berbeda namun memberikan kenyamanan yang sama dengan kasur premium;

1. Menggunakan pegas jenis *pocket* yang kuat dengan kuantiti yang lebih banyak dari kasur *pocket* reguler.
2. Penggunaan jenis kain *knitting* yang lembut sebagai kain *cover*, dilengkapi dengan berbagai macam *treatment*. Seperti *sanitized* yang bisa mencegah kuman berkembang biak, dan *eucalyptus* yang ampuh mengusir nyamuk untuk tidur lebih nyenyak.
3. PU *foam* produksi kami, telah menggunakan mesin *continuous* teknologi dari Jerman berkualitas baik, yang lebih stabil dalam proses produksinya.

Hal ini membuat kasur kami terasa *firm*, lembut, dan juga anti-kuman.

Material Terbaik Hanya Untuk Anda

Dom*i* Bed memanufaktur material secara mandiri sehingga material yang diberikan selalu berkualitas.

Lebih Praktis

Kasur kami dikemas dalam kemasan *box*, sehingga pengiriman ke lokasi Anda akan lebih mudah, praktis, dan tidak membutuhkan ruang yang besar.

Dom*i* Bed akan memberikan anda pengalaman tidur yang lebih nyaman, bersih, dan sehat.

Kontribusi Kami

<u>Giving</u>	<u>Eco Friendly</u>

EXECUTE GUIDELINES

domi

Tipografi merupakan aspek penting dari identitas brand. Tipografi memainkan peran penting dalam mengkomunikasikan tone dan kualitas identitas secara keseluruhan. Penggunaan tipografi yang cermat memperkuat identitas dan memastikan kejelasan, kejernihan, dan harmoni dalam komunikasi.
